Subject: Rwanda PK Meeting

4246

Date Received: 06/27/94

RELEASED IN FULL

The Core PK Group is seized with the need to get the expanded UNAMIR into Rwanda as soon as feasible. Toward that end, we are to do the following:

Meet equipment needs of Ghanians

- DOD is to look again at the needs list to see what can be done to provide those items currently unavailable in our inventories;
- JCS is to request that EUCOM send a logistics expert along with the Abdiyan DATT when he visits Accra (presuming that Accra agrees to the DATT instead of someone from DOD/Washington). The purpose is to review the scrubbed list (again) against Ghana's claim that it is inadequate.
- Ken Brown or GEM should call Pres. Rawlings to underscore the urgency of getting the battalion into Kigali asap.
- DOD is to follow up to make sure the APCs in Uganda get the radios they need (!!!!!) as soon as possible.

Bring other troops into Rwanda under UNAMIR control a.s.a.p.

- USUN will follow up to ensure the two meetings for troop contributing countries and donor countries take place soon. This means that

State and USUN need to confirm who the troop contributing countries are -- GEM can do this with Salim-Salim tomorrow.

State and USUN need to determine possible donor countries. Specifically, State needs to follow up with the South Africans on their offer to help Zimbabwe. Are they sincere? AF/S/C will prepare demarche. We then need to suggest a foster parent for Ethiopia.

The French withdrew their request for transport. We are waiting to see whether or not the Senegalese follow through on their informal request for equipment & troop transport.
